

IMPA
Indiana Municipal Power Agency

Energy Efficiency Program

Reduce
energy use.

Save
money.

Earn
incentives.

The IMPA Energy Efficiency Program is offered through your local utility, in partnership with its power supplier, the Indiana Municipal Power Agency (IMPA). It is designed to help consumers at all levels - residential, commercial and industrial - save money through reduced energy usage.

Residential HVAC

IMPA's Energy Efficiency Program offers residential customers of IMPA member utilities the opportunity to earn rebates on qualifying heating, ventilation, and air conditioning installations.

C&I HVAC & VFD

Installing high efficiency Variable Frequency Drives (VFDs) and Heating, Ventilation & Air Conditioning (HVAC) equipment can lower maintenance costs and improve reliability.

C&I Food Service

Eligible measures for the Refrigeration, Food Service, and Controls program include air and water-cooled chiller replacements, commercial restaurant equipment, ice machine replacements, and more.

These programs can be changed at any time without notice, and are available on a first-come, first-served basis. All projects must be pre-approved to qualify for an incentive. Equipment ordered, purchased, or installed prior to approval may not qualify. Please refer to the individual program terms and conditions at www.impa.com/energyefficiency for more information.
