

2020 ECONOMIC DEVELOPMENT INTERNATIONAL ZOOM SERIES

As we navigate the current world together, we continue to explore new ways to connect with others. IMPA is pleased to bring you a zoom chat series to provide an opportunity for members to connect with countries that are investing in our communities. Join us and representatives from six different countries as we discuss the relationship between Indiana and each country and what that means for the economic development world.

Each session will be one hour, beginning with a panel format and followed by questions and answers from the audience. The webinars are free to all IMPA members and member employees. Space is very limited - don't wait to RSVP.
